A WEEKLY JOURNAL, IDENTICAL IN INTEREST WITH ITS OWN PEOPLE.

VOL. III.

MT. STERLING, KENTUCKY, TUESDAY, JUNE 20, 1893.

NO. 47

The State Medical Association will hold its next meeting at Shelbyville in May of next year.

The official figures show that during May 1,030,037 people paid for admission to the World's Fair.

At last Louisville's charter was reported in the Senate and passed without opposition.

Kentucky wheat is ready to cut. It is affected by rust in some sections. Oats and grasses are reported fine. Tobacco nearly set.

One man was killed and five people were wounded in an accident on the ice railway in the Midway Plaisance of the World's Fair.

W. H. Smith is slated for the District Attorneyship of Kentucky. Mr. Smith is a resident of Mayfield, and a distinguished gentleman.

The Nashville savings company have assigned. The assets are thought to be worth about \$125,000 and the liabilities \$182,876.

The paid admissions to the World's Fair to date number 2,328,759. Hereafter only the total, including both paid and free admissions, will be announced.

The largest advertisement ever produced was that of the Glasgow News, on the side of a Scottish mountain. It was made of flower beds and could be read easily four miles away.

Rev. W. C. Hunt of Louisville, pastor of the Sharpburg Baptist church, has received a call to Mt. Pleasant Baptist church, Jessamine county, and is seriously considering it.

Maggie Hatten, of Rockville Ky. claims to be the youngest professional telegrapher in the world. She is only 11 years of age, and for six months past has had sole charge of the O.E.B. S. telegraph station here.

The Kentucky Poultry Association was organized at Lexington recently and J. P. Barbee, of Bourbon county, was elected President; M. A. Scoville, Lexington, Vice President; Theo. Campbell, of Lexington, Secretary, and J. R. Willingham, Treasurer.

T. G. Calvert, a well-known Lexington jeweler, has been made defendant in a \$2,000 damage suit, filed by Paris Rowland, a painter. The plaintiff in his petition avers that he was bitten by the defendant's dog, while at work on Mr. Calvert's house, and asks the court to grant him damages in the sum of \$2,000.

Boston continues to fight against the destructive gypsy moth. The shade trees on most of the streets, not only in the city but for several miles around it, are belted with sticky stuff designed to entrap the feet of the creatures as they climb up the trunks, and formerly a quarantine was established against them, every carriage and covered wagon being stopped beyond the city limits and inspected to see that none of the moths were riding into town on the roof.

PRESIDENT CLEVELAND

Interested in the Horrible Tragedy caused by the Falling of Ford's Theater.

Marked Improvement in the Financial Situation.

Sherman's Silver Law has Cost the Government over \$11,000,000.

Republican Administration; What do You Think of it?

APPOINTMENTS.

Mr. Bissell has Changed His Mind.

A Board of Revision to be Established in the Pension Bureau.

WASHINGTON, D. C., June 19, '93.

President Cleveland is deeply interested in the efforts that are being made to ascertain if the carelessness of any person was responsible for the horrible tragedy in Ford's old theater, which killed 21 and injured sixty-odd clerks in the Records and Pension office of the War Department, although he has wisely refrained from taking any action that might be considered as interfering with the properly-constituted authorities now engaged in that task. Great pressure is being brought to bear on him to suspend or remove Col. Ainsworth, the army officer who is at the head of that office, and upon whom a great many people are disposed to place the blame, but Mr. Cleveland's idea of fair play is such that it is not probable that he will take any action until there is more tangible evidence of Col. Ainsworth's guilt than public clamor for making him a scapegoat. If he is guilty surely that fact can hardly escape the coroner's jury now investigating, and the army court of inquiry which will take the matter up at the close of the inquest.

The improvement in the financial situation has been very marked during the last few days, and Treasury officials and others who keep close watch on financial affairs believe that the turn has come in the flow of gold abroad and that the situation will continue to improve. It is certain that the gold in the Treasury is again

increasing at a gratifying rate and that there is at present no demand for gold for shipment abroad. Secretary Morton expresses the opinion that from now on our cereals will take the place of the gold which we have been shipping to Europe, and the fact that the large amount of gold which the Rothschilds contracted to furnish Austria has all been delivered is also thought to have been a factor in causing a cessation in the European demand for gold.

The Government has lost in actual cash, according to Secretary's Carlisle's figures, in carrying out the provisions of the Sherman silver law, nearly \$11,000,000, representing the difference between the amount paid for the silver now stored in the Treasury vaults and its present selling price. If it really had to be sold at once the loss would probably be much greater, because of the further depreciation in price that would follow such a large quantity of silver on the market.

Among the consular appointments this week was that of Benjamin R. Bodie, of New Jersey, to be Consul at Sheffield, England, in place of Benjamin Polson, resigned. Mr. Polson who has held the position since his appointment early in the first Cleveland administration, is a cousin of Mrs. Cleveland's and as "Cousin Ben," he figured in all the Republican papers as proof that President Cleveland was not in earnest when he declared himself opposed to nepotism. Wonder what those same fellows will say now that Mr. Polson has voluntarily resigned? The chances are that they will ignore it entirely and say nothing.

Secretary Carlisle has, in one respect, a long lead of all the other heads of departments. Since taking charge of the Treasury he has replaced more than 200 Republican officials outside the classified service, with good Democrats.

Democratic Congressmen, after a hard and stubborn fight, have succeeded in convincing Post-master General Bissell that his rule against the removal of Republican fourth-class postmasters who have served four years or more, unless charges are filed against them, is a bad one, and it will be recalled and all Republicans who have been in office four years or more will be replaced by Democrats just as fast as they can be got at in Mr. Maxwell's office.

A letter received by Mr. Cleveland this week furnishes conclusive proof, were needed, of the wisdom of the establishment in the Pension Bureau of a Board of Revision, the sole duty of which is to go over all the pensions that have been granted in accordance with a proper construction of that law. The writer of this letter, Mr. J. Burnett, is an employee of the office who voluntarily resigned during the last administration because he could not conscientiously take part in carrying

out Baum's methods. He tells the President of a large number of pensions illegally granted, and gives names, dates, and the number of the applications, so that his statements may be easily verified. He says that thousands of pensions have been illegally granted, and that they are not confined to cases in which the law was wrongfully construed, but include an enormous number granted in direct violation of law. Mr. Burnett concludes by expressing the belief that at least \$50,000,000 a year can be saved by a thorough and rigid purging and revision of the pension rolls.

Attempt to Murder a Villainous Creature at Large.

At Sandis, Macon county, on last Wednesday, Garrett Parker attempted to poison the entire family of Holman Boulden by putting a teaspoonful of Paris green in a bucket of drinking water. He was stirring the poison in the water when discovered by Mrs. James Kirk. News spread and a mob organized to hunt the would-be murderer, but he had made his escape.

The Christian churches of Kentucky will erect a new orphan school building at Midway. Plans have been accepted and work will soon begin. The building will cost \$20,000.

Honored. Vice President Adlai E. Stephenson, who is an alumnus of Centre College, has received the degree of L. L. D. from that institution.

Sudden Deaths. In Bourbon county, last Saturday, Miss Nannie Clay, daughter of Mr. Kitt Clay, died very suddenly, and the following day her younger sister died with as little warning.

Her Royal Highness, infant Eulalia, has granted a personal interview in which she denies the stories of her rudeness to Mrs. Potter Palmer and others. She says, very sensibly, that she enjoyed her visit and never had a thought of offending any one.

Stage Accident. The stage playing between Little Rock and Paris was wrecked Monday morning. When the vehicle was going down the declivity near Todd Wilson's the breast-chain was broken and the stage became uncontrollable, and the horses ran. Miss Cooper, of Winchester, was hurt about the head, her face being bruised and cut, and E. W. Wilson, of Little Rock, hurt by baggage falling on him.

Y. M. C. A.

The Association cleared \$49.12 by the entertainment given last Friday night. It was the best evening diversion ever given by our home talent.

All the young men who attended the meeting Sunday afternoon, were well pleased with the address given by Hon. Ed C. Orear. It is a pleasant place to come Sunday afternoon, and all visitors will receive a cordial welcome.

Coleman O. Groves will talk to the young men next Sunday, on "Christ Among Men."

ANNUAL HOP.

Of the Owingville Ball Club-The Band Couldn't Get There.

On the evening of the 13th inst., the Owingville Ball Club gave their annual meeting. The young people of our neighboring town always do the elegant; but on this occasion they expected to surpass all former efforts, and would have done so had it not been for the disappointment by Sax & Tread's band. It was 10 o'clock when they were informed the band could not get there. This put no rest to their entertainment, and at 12 o'clock they had secured a band from here and everything went off nicely. The young people from here were extravagant in their complimentary expressions, which doubtless are well deserved.

John C. Richardson, Sheriff of Montgomery county, made the following sales of real estate to satisfy executions, etc., on Monday, County Court day: Traders' Deposit bank against Henry July, 40 acres of land for \$300, bought by the Plaintiff Traders Deposit Bank. Traders' Deposit Bank against W. F. McCormick, etc., \$25 undivided interest in Father's farm, on Brush Creek, for \$300, bought by Plaintiff Bank.

Mr. Sterling National Bank vs. Wm. Roach, &c. Two houses and lots on Main street for \$1,205.05, amount of execution \$205.05; bought by plaintiff Mr. Sterling National Bank.

John Samuels vs. George Daniel, 1-13 interest in 44 acres of land near Prewitt's Station for \$18; bought by plaintiff Samuels.

The bicycle relay message from the Governor of Illinois was received by Gov. Brown at Frankfort at 7:06 p.m. yesterday. The time between Louisville and the Capital city was covered in three hours and six minutes. The start from Springfield was made Wednesday at 9 a.m.

The Bourbon News says: "Rev. Dr. Boland, of this city, who will assist in the management of the Deering Campmeeting, is now in correspondence with a number of prominent divines, with fair prospects of getting some very able talent for the meeting, which begins August 10th."

The Kentucky Central's passenger depot at Paris, is being moved back seven feet in order to give more room for the transfer of baggage, &c. The office building near by will also be moved back the same distance.

A Congressman, recently speaking of the opening of the World's Fair at Sunday and the opposition to it, said: "These people had better take care how they fool with God Almighty, now that He has the cholera so handy."

Last Thursday evening, Tommie Sutton celebrated his birth day by giving a party to his associates. The children enjoyed themselves superlatively. The rooms were beautifully decorated. They had lots of fun playing and the luncheon was delightful.

Chief Justice Fuller, of the Supreme Court, has decided in favor of the World's Fair, and Sunday will not be observed as a day of rest.

THE ADVOCATE.

John C. Wood has sold his house and lot, on Queen street, to W. T. Fitzpatrick for \$1850.

Born, to Allen McCormick and wife, on the 15th inst., a son. This is Peter Greenwood's first grandson, and they say he smiled and grinned until his mouth split to his ears.

Senator J. C. S. Blackburn and wife are in Washington, D. C. They passed through here for that place last week. They will remain there only a few days.

The property on Win street, known as the John H. Mason property, containing 7 acres, was sold by the Exchange Bank of Kentucky to J. W. Chensault last week for \$5,000 cash.

Cattle sales will not be allowed to be made on the streets in the future. But pens will be provided and our friends who bring their cattle to the market will fare better than they have in the past. Come on with your stock.

Col. Bennett H. Young is a member of the law firm of Young & Trubow, Louisville and the father of Lawrence Young, who has been admitted into the firm and will soon marry Miss Wheeler, of Chicago. We all have a warm heart for Col. Young and his, who is well known here.

Miss Jennie McWilliams was married on the 14th inst., at the Second and Broadway Presbyterian church, Louisville, to Dr. J. P. Bryant, of Brownboro, Oldham county. Miss McWilliams formerly lived here, is a most excellent lady and we are glad Dr. Bryant has taken to himself a good wife.

The many friends of the Rev. F. Agar, the mountain missionary, will be sorry to hear of the continued sickness of Mrs. Agar. She has been removed to the Infirmary at Lexington, where she is under the best of treatment, and we hope she will soon be able to continue her mission work. Let all Christians remember her in prayer.

It has been currently reported that Dr. H. H. Pierce would move to this city. This is a mistake. Dr. Pierce has no such intentions. He will continue to live at Spencer and practice his profession. He will, however, be here one day in each week attending to the office of Examining Surgeon of Penitents.

Mrs. Bessie Miller Oton, one of the most accomplished of Lexington's ladies, and a cousin of Mrs. Lon Hampton, Mrs. Wm. Mitchell, J. O. Emory and others, of this county, has returned from a very successful reading tour through the South, and notices of her works have appeared in a good many of the most prominent Southern papers and are very flattering, indeed. She read among other places at New Orleans, Selma, Ala., and Waco, Texas. After her reading at the Lafayette Presbyterian church, in the former city, she was crowned with a wreath of flowers by the pastor, Rev. Thomas R. Markham.

The Mt. Sterling Fair, from all indications, promises to be one of the best in the State. The track is fast, has been widened and will be in first-class shape by July 4th, the opening day. The entries to the stakes and purses have filled well. In the two-year-old stake, 15 have made second payment, and at least 12 will start. The 3:00 minute trot has 17 entries and will be a great race. The 2:30 pace has 13 entries, and, as some of the entries showed fast last season, it is certain to be a very interesting race. These three races all come on July 4. On July 5, in the three-year-old stake, there will be 10 starters and quite a number have shown fast trials. This will be one of the best races of the week. The 2:30 trot has 12 entries, and it will be a race for blood. The 2:30 pace has 8 entries and it is needless to say you will see some fast time. The other days will both have good races, as the entries are large with some of the best horses in the country. The races will be called at 1:30 p. m. every morning of each day, will be thorough, and the Association promises a treat to every way of fine stock.

A New Railroad

We were shown a letter from parties in the East to Mr. John Fleming asking as to the practicability and whether such a road could be made to pay from this place South, through Robertson, Nicholas and Montgomery to the coal fields. Mr. Fleming answered, favoring the route, and has now received the second letter, in which they say that in a short time a party of four or five will come to this place to talk to the people in regard to this matter; and that they will be obliged to depend on citizens along the proposed line for routes and accommodations while viewing the various lines that may be proposed. The principal parties are now in England, but will be here in a few weeks. Anyone taking interest in the matter will do well to correspond with Mr. Fleming. Letters directed to this office will be delivered to the proper parties.—Bracken Chronicle.

Yes, this would be a paying road, could be easily built, and would be about 35 miles nearer to Cincinnati than any other route, either now in operation or being contemplated. Such an effort, we are glad to see, and are satisfied that it would meet with the most favorable encouragement. After reaching Mt. Sterling the route would be via the Kentucky and S. A., through Morgan, Morgan and Magoffin, thus penetrating the richest coal fields in Kentucky.

RELIGIOUS.

The Sunday-school of North Middletown raised \$17 on Children's Day for foreign missions.

Miss Anna Cartwright, an evangelist, has been holding a meeting at Louisville for two weeks, and reports 200 converts.

Rev. W. H. McVie, of the Episcopal church, has accepted a call to the rectorship of the churches in this city and Winchester.

Rev. E. E. Bomar preached his farewell sermon at the Baptist church Sunday, to a large audience. He will leave for Illinois Friday. His pastoral labors have been a great success here. He is loved and respected by all Christian people, by his and other churches, and it is with deep regret that we give him up. The prayers and best wishes of all good people will follow him.

Chautauqua

At the sale of Chautauqua tents which is now opened. More tents were taken than any previous year, which means a big success this year. The programme is an unusually good one. Eleven days crowded full of the best things genius can devise or money procure; an oasis in life's desert; an inspiration for all the days to come. Can you afford to miss it? The programme has been arranged with the greatest of care and it is confidently believed will satisfy the masses. Music has been made a leading feature.

Large crowd in city Monday. Cattle sales good. Better quarters next month.

The twelve men, of this county, indicted by a Menefee grand jury charged with kukuizing, have been pardoned by Governor Brown. It is charged that they had confederated and banded together with the view of mobbing Brookshire, the murderer of Kavanagh Tipton, who was at that time Jailor of this county and in the discharge of his duty.

S. D. Brady, Ray County, Mo. cashier of the Citizens Exchange bank of Orrick is in the county visiting friends.

From the Spencer precinct there will be a candidate for County Clerk. He will announce himself in the Democratic papers at the proper time.

Rev. C. C. Cox, of Cyntians, a very eminent Baptist preacher, will preach at the Baptist church next Sunday.

Miss Stella Thompson is in Louisville.

The ladies of the Columbian Club of Paris, netted \$40 on the lawn party last Thursday night.

There was only a small crowd in town county court day; very little stock was offered for sale; collections slow; indeed, Monday was a dull court day, considered in every way.—Owingsville Opinion.

Miss Bertie Snail, of the city of Danville, and Henry L. Godsey, of Hazel Green, were married at the home of the bride's aunt, Mrs. Eliza Akin, in Danville, June 15. Elder Bruce Trimble, of this city, performed the ceremony. Mr. Godsey is the son of Hon. Godsey, Hazel Green, and a relative of the Messrs. Trimble, of this city. Mr. Godsey attended school at Hazel Green until he entered Centre College at Danville, graduating last year with high honors. Mr. Godsey is a very brilliant young man, and has been the winner of several oratorical contests. He is now preparing for the legal profession.

We have received an invitation to attend the graduating exercises of the Kindergarten Training School at Chaucery Hall School, New York. Mrs. Sophia Randall is a graduate of this school. She has been employed to teach the Kindergarten system in the Mt. Sterling Graded School.

Mrs. Randall is one of our brightest women by nature and education and is in every particular adapted to the profession chosen by her. Kindergarten system is a modern method and the greatest method known in laying the foundation for a thorough education. The Public School Board has acted wisely in securing her services. There are other additions to be made as soon as the finances and circumstances of that institution will permit.

THE ADVOCATE.

FIVE YEARS OLD.

Have you seen my baby fair,
Any where?
Golden curls, and sweet blue eyes,
Capit laughing in his play,
But yester eve I crowned to him my first
Low lullaby.
Have you seen my baby boy?
These his eyes,
As he dropped in his play,
Dancing off another way,
As quick, or flower, or butterfly
Led him to stray.
Say you he will yet return?
Not again—
The bird must to the flower unfold,
Amid time's changes manifold.
Today my boy, a hale but yesterday,
Is five years old.
Yet I know that God's dear will
To fulfill,
Babe must become a man,
Learn the world's joy, and its pain,
Learn its losses and its gains,
And choose between.
Brave enough to right the wrong.
True and strong,
Day by day my boy must grow,
Since best love knoweth it is better so,
I cannot wish him longer to remain
A baby boy.

Good Housekeeping.

Durable, Low-Price carpet.

Where honest worth and wearing qualities are considered, the ingrain carpet is the very best carpet at a low price. The shopper is warned, however, not to buy any inferior grade of this carpet, or indeed of any kind of carpet. The most admirable shams of the market are found in the carpet department. Mixtures of cotton, jute, hemp and all varieties of abominations are rife among inferior manufacturers of carpets. There is but one guarantee for the inexperienced shopper, that is to deal with a store that buys the best quality of goods from makers whose names are a guarantee in themselves of their goods. Many of the best makers stamp their names on the backs of their body Brussels, Wilton and Axminster carpets. There are many manufacturers of ingrain carpets whose names are security for these goods, and there have been great improvements in the patterns of these carpets in the last dozen years, so that no one need reject them on account of their inferior style. While upon the subject, let us say that the old-fashioned rag carpet is a very durable and may be a very tasteful floor-covering. It is certainly in every way to be preferred by a person of taste to a tapestry, velvet or even the much-vaunted Moquette, all of which must be classed as showy shams.—Good Housekeeping.

FLOUR NEW AND OLD.

Flour, when new, has (assuming that the wheat was in good condition) a sweet, nutty flavor; but it is more difficult to make good yeast bread with than when it has had time to lose nearly all its moisture. It is, therefore, better to get flour that has been ground a few months. Good flour will have a pleasant odor and a creamy taste; poor flour, a grayish look and an unpleasant smell. Nearly all flour is now made by the roller process, but which gives more of the gluten and phosphates than the old process. This flour is granular to the touch, and because it packs more closely, it has about one-eighth more thickening power, measure for measure than that made by the old process; but weight for weight this is not the case. When using old rules that call for the measures of flour, use one-eighth less than the rule states.

Entire-wheat flour is, fortunately gaining in popularity among people who give the right sort of thought to the food that they supply for their families. This flour should be used almost wholly for bread making in families where there are children. It contains more of the nitrogenous and mineral matters than the white flour does. Whole-wheat meal and graham are, or ought to be, the same thing; that is to say, the wheat ground into a fine meal. It often happens that a poor quality of flour is mixed with wheat brand and sold for good graham. In making fine flour the germ is removed from the wheat, but in the meals this is usually not the case; therefore, they will not keep so well as fine flour. Buy all meals in small quantities and keep them, if possible, in tin cans or stone jars and in a cool, dry, well-ventilated place. Flour should be kept under the same conditions—Maria Parlor, in Good Housekeeping.

Clarence Day, of Hazel Green, received an appointment by which he will enter West Point. He was at Spencer, this county, last week visiting his cousin, Will L. Day, and went from there to West Point. This is a high compliment to young Day, and we rejoice with him and his friends.

Plantation colored people are often afflicted, as Dr. Fennor found when traveling in the south. Their diseases were painful. Many of them had what they called "Golden Relief" when traveling. As it relieved the pain and reduced the swelling almost immediately in every case, they called it "Golden Relief Quick," a not inappropriate name. Dr. Fennor met a planter who informed him that he would sooner be without corn meal and bacon on which his colored help subsisted, than Golden Relief, which he used to cure their aches, pains, summer complaints and dys. This Remedy cures any ailment which has inflammation and pain as its base, from a chronic bronchitis to a pulmonary consumption. Inflammation can no more exist in presence of this remedy than the lightning can under the fumes of sulphur. No inflammation, no swelling, no pain, no bronchitis, no consumption. One tablespoonful dose is a certain cure for La Grippe, or nervous or neuralgic pains in it. Safe and certain—never disappoints. Money refunded if satisfaction not given. Take a bottle home today.

The World's Fair and American Railways.

The Queen & Crescent Route widely known as the road running the "Finest Trains in the South," is in the field to carry everybody from the South to the World's Fair at Chicago. No part of the Southern country is left uncared for by this great railway and its connections. The Through Car System is an admirable exposition of the wonderful capabilities of American railroading. From New Orleans Through Sleeping Cars run daily, morning and evening, carrying its passengers via Cincinnati or Louisville, as they may select.

From Shreveport, Vicksburg and Jackson another Through Sleeping Car Line comes out and becomes a part of the magnificent Vesteduled Through Trains, which passing through Birmingham and the famous Wills Valley of Alabama, is joined at Chattanooga by the train from Jacksonville, Fla., Brunswick, and Atlanta, Ga., over the E. T. V. & Ga. railroad, and proceeds north over the beautiful Cincinnati Southern, through the grandest natural scenery and most attractive historical country in the world, to Oakdale, where another magnificent Pullman car is received, coming from the Richmond & Danville System from Charleston, S. C., through Columbia, S. C., the beautiful French Broad country, and Asheville, N. C., and Knoxville, Tenn.

The time to Chicago is made so as afford the most convenient hours for departures from the principal cities and arrivals in Chicago.

Passengers can purchase tickets good over one line north of the river, and returning via another if they desire a variable route without extra charge. Or they can go via Cincinnati, returning via Louisville, or vice versa.

Round trip tickets on sale at reduced rates. Agents of the Chicago line will on request assist in looking up rooms or accommodation for visitors to the Fair.

Everything that an almost perfect system can devise to deserve the prize and patronage of the traveling public has been provided. Any of the agents of the company named below, will cheerfully give all possible information and assistance. R. H. Garratt, New Orleans, La. I. Hardy, Vicksburg, Miss. J. R. McGregor, Birmingham, Ala. HORSE AND TRACK.

Arlon will shortly be sent to the Meadville track to be trained by Marvin.

Twenty-two trotters and no pacers were added to the standard performing list in May.

Flying Jib is in racing form, and some time ago paced a mile in 2:12.

Over seventy trotters have entered the 2:30 list so far this season.

Masot, Hal Pointer, Johnson Guv and Manager are booked for the free-for-all pace at Buffalo.

Eliza, 2:20½, has foaled a bay filly by Arlon, 2:10½.

Hopple is a great thing to correct and improve a horse's gait, but the driver of the horse wearing them should carry a heavy life insurance.

Yearlings and two-year-olds can hardly be depended upon in their races as they are frequently beaten in ten seconds slower time than they have shown in their trials.

The pacer Blue Sign, 2:08½, is in excellent form and is said to be much faster than his record.

Saladin lowered the record for half mile track at the pace at Wilmington, Del., last week to 2:09½.

The gray mare Abbie V., 2:16½, died suddenly at Philadelphia a day or two ago. She picked up a nail which caused lockjaw, resulting in death. She was in the stable of Jno. E. Turner, taking preparatory work for the campaign of 1893. Abbie V. was seven years old. She was got by Aberdeen, out of Maid of Windsor by Peavine, and while a very fast mare she could not always be depended on.

Breeders and blacksmiths should take a note of this: At Palo Alto the horseowner is never allowed to use a knife on the feet of trotters. The rasp only must be carefully used, and should there be any marks on the outside of the hoof, a prompt dismissal of the employe follows.

A few trotters have been named as being in the field to lower the record of Nancy Hanks this year. Their chances are very ably set forth in the remark of the bookmaker about a fixed race. One no account had been left out, and a timid person on the inside intimates that he might possibly win. "Yes," said the bookmaker, "the sheep might kill the butcher, but I am willing to risk my money on the butcher."

Just one word to the young trainer who is now training one or more colts. The time of year has arrived for actual speed, not the anticipated speed you had in mind last winter and early spring. The colts you have been working have, we are quite sure, in most cases, up to the present time made sufficient amount of speed to satisfy you, but some of them, even this early in the season, seemed to have reached their speed limit; in fact, many appear to be going back. You have now reached a critical point in the development of colts of this kind and you must exercise your best judgment to succeed with them. They may have become a trifle foot sore or muscle sore, or the boots that at first protected them well, may not, now that he has changed his gait more or less, as he has been making speed, be just what he wants. The same weight of shoe that he at first wore, possibly is not now the right weight, and a thousand things may have caused the colt to act badly, go mixed gaited, to lose his speed, etc. Be careful how you proceed now; don't get bull-headed and try to make the colt trot—a thing he can't do if you were to kill him. Go and sit down on a box and think it over, use your head, and try to find out what has brought about this disappointment. Don't whip, don't jerk, don't abuse him, think and think often and long.—Trotter.

FROM THE WORLD'S FAIR.

A Special Letter.

While fairies in all lines are numerous, there is an especial pestilential multitude of those selling pictures, maps and guide books of the grounds. They cry them in your ears at all the railroad stations and the steamboat landings, and at the gates opposite the grounds, falsely shouting the "Official Guide." If the visitor will bear in mind that there is but one "Official Guide," that it is the only guide sold within the grounds, and await entering the ground before purchasing, he

will avoid a petty imposition. As the genuine "Official Guides" sells for 25 cents, there is not much at stake, but it is just as well to avoid even a small swindle by the outside fakir; if you care for a guide book at all. The genuine guide book is an especial aid for those who wish to make rapid work of seeing the fair.

Matters are gradually but surely shaping themselves in the installation of exhibits, and so much has been accomplished in the manufacture building that now Chief Allison can get his much-needed rest. This, the largest building in the world, is now completely installed and is a fair in itself. The Italian section shows much from the land of the bandits, and very dainty and pretty is the workmanship of the displays made. France seems to have set the pace for other Nations to follow, for surely it would seem that she had left nothing out. It is magnificent almost beyond description.

Dr. J. J. Taylor, of Mobile, Ala., and former pastor of the Upper Street Baptist church, Lexington, and who once held a meeting in this city, has been elected President of Georgetown College by the trustees of that institution.

The German election returns were completed Saturday. They showed that of the 215 candidates elected to the Reichstag, 101 will vote for the Army bill and 114 against it. The Government, however, has steadily increased the list of members upon whom it can rely for support, and the Ministers have reconsidered their determination to issue an appeal to the country before the second ballots. Speculation on the course has improved.

Joseph Pulitzer has given Columbia college \$100,000 to endow a preparatory school for poor boys ambitious for the advantages of a college education.

Louisville Tobacco Market.

Furnished by Glover & Durrett, Louisville Tobacco Warehouse. Sales on our market for the week just closed amount to 1862 hhds., with receipts for same period 1785 hhds. Sales on our market since January 1, amount to 74,652 hhds. Sales of the crop of 1892 on our market to this date amount to 78,422 hhds. We have had a more active market for the burley tobacco, for the past week with better prices for all grades, common red fillers being possibly stronger in proportion than any other kind. We make some slight changes in quotations, which now fairly represent our market for new burley tobacco (1892 crop).
